

Official Advisory of Subic Bay International Terminals

07 OCTOBER 2022

ADVISORY NO. 2022-00029

Dear SBITC valued clients,

Please be advised that Subic Bay International Terminals (SBITC) has received four additional rubber tired gantries (RTG) to boost its landside operations and improve overall productivity in support of the growth prospects of North and Central Luzon in the Philippines.

The additional RTGs will augment the terminal's existing fleet of six to enable quicker truck and vessel turnaround times for smoother cargo flow. The resulting efficiency gains will allow SBITC to stay ahead of the demand curve and cater to the increased cargo shipments during peak shipping season.

The additional RTGs will enable SBITC to further improve its service offerings to stakeholders and raise the industry standard in the region.

Best regards,

SBITC Management
